

UNIVERSITY OF TORONTO
FACULTY OF APPLIED SCIENCE AND ENGINEERING
ESC103F – Engineering Mathematics and Computation

Final Exam

December 21, 2020

Instructor – Professor W.R. Cluett

Writing this final exam is an example of when students preparing to become professional engineers are required to invoke a high level of integrity and honesty. The completion and submission of the following statement with your signature is required for your final exam to be graded:

I, PIDDHIMAN POF (print first and last name), pledge upon my honour that I will not violate our Faculty's Code of Behaviour on Academic Matters during this assessment by acting in any way that would constitute cheating, misrepresentation, or unfairness, including but not limited to, using unauthorized websites, aids and other assistance, impersonating another person, and committing plagiarism. I acknowledge that providing unauthorized assistance to someone else is also considered a serious academic offence.

I acknowledge that the only authorized aids for this exam are my ESC103F lecture notes, my own tutorial and lab notes, posted tutorial problem sets, past term tests, past exams, and their solutions on Quercus. No calculators are allowed.
