ESC 103F Engineering Mathematics and Computation

MATLAB Test

Name (last name, first name): ROY , RIDDHIMAN

Student #: 1006967519

Tutorial Section Number: TUT0104

Writing this take-home MATLAB test is an example of when students preparing to become professional engineers are required to invoke a high level of integrity and honesty. The completion and submission of the following statement with your signature is required for your MATLAB test to be graded:

I, RIDDHIMAN ROY (**print first and last name**), pledge upon my honour that I will not violate our Faculty's Code of Behaviour on Academic Matters during this assessment by acting in any way that would constitute cheating, misrepresentation, or unfairness, including but not limited to, using unauthorized websites, aids and other assistance, impersonating another person, and committing plagiarism. I acknowledge that providing unauthorized assistance to someone else is also considered a serious academic offence.

I also acknowledge that the only authorized aids for this test are MATLAB, including its built-in help function, my ESC103F lecture notes, tutorial notes, and lab notes, my own MATLAB files for Labs 1-4, as well as any additional information that has been posted on Q pertaining to the MATLAB Labs and past MATLAB tests.
